Melanie Walker introduces herself to Gotham and sends a message to everyone in the city to respect her and treat her good.

She says :

Obey or Face Your Faith by your relatives (people that you know). Love Me Survive Me or Die For Me.

Later People start to obey and love her more than villain that Gotham ever face.

They nominate her " The Goddess of The Humbleness and Dignity " because she always hate the injustice in the city and the snob persons in any sector, domain or even in Life.

And she finishes her speech with the sentence : Let's make Gotham Great Again

And the Killing begun in Gotham.

The citizens were so mad and kill each others without any reason. The Celebrex liquid make them insane by touch the cards.

So they throw the cards first to see if it's a number or a picture because it's important to the victim. Then finish the killing.

If the card is a number (The Victim will be dead by a random person with the numbers of the stabs or the numbers of the bullets equivalent to the numbers on the card)

If the card is a Picture it depends :

- If it is a King Card
The victim will die by a male that he knows as person for exemple his Father, brother, cousin, boss, Grandfather, or even Husband.
- If it is a Queen Card
The Victim will die by a female that he knows as person for exemple his Mother, sister, cousin, boss, Grandmother, or even Wife.
- If it is a Jack Card
The Victim will die by a Sbire (Melanie Walker's Worker, A Chosen Ace member by the New Goddess of Gotham as Villain)

Gotham Therapeutics helps the patients and offer to them a very large range of modern Therapy services with the new techniques. But it was also a very unique special place with Melanie Walker rules. For example the Joker Card, doctors will use it to examine their patients and give them the best treatment ever. As for the patients they will receive it from their doctors after any session to complete their registration in the program because each Joker Card contains a very specific number of each one. And everyone needs to protect the Joker Card. Or They will be dead and thrown away.

This time each number has a very magic spell for example 3 means you will have 3 times headbutts on the wall before you die the new cards are different. Especially their effects. ETC... The 7 means that your heart will beat 7 times before your valve be cutted

Melanie Walker did not stop to be more powerful, invincible and dominates Gotham. In fact she went too far, now she produces more efficient new cards unlike the old ones made from kerosene and mixed with the marker liquid and the celebrex to make Gotham citizens more crazy and reach the total insanity.
